

SUTTER CLUB RETREATS

Miramichi, New Brunswick

ABOUT SUTTER CLUB

Located in Doaktown, New Brunswick (near Miramichi), Sutter Club is the perfect secluded retreat for your next group getaway!

Our club began in the 1994 season, and is now regarded as the top salmon club on the Miramichi River. The Club can host small groups of 8-10 for fishing, executive meetings, family getaways, or wilderness retreats.

Escape your busy life, and travel to our tranquil oasis, featuring:

Waterfront Property:

Situated on 50 beautiful acres on the Miramichi River

Fun-Packed Activities:

Salmon fishing, hiking and biking trails, and water sports like kayaking, tubing & canoeing

East Coast Hospitality:

Our staff members are passionate East Coast ambassadors! From our talented cooks, to our expert fishing guides, your group will have a true “Down Home” experience!

Lodging:

Sutter Club has seven separate bedrooms, each with their own bathroom. The Main House features four bedrooms, and there are two private cottages on the resort

A Home Away From Home:

Home cooked meals, wifi, satellite TV, air conditioning, airport pick-ups and all your activity equipment is included in each retreat package

SUTTER CLUB FISHING

Sutter Club is a privately owned salmon fishing club. The Club is located on Miramichi River, one of the most legendary and productive salmon rivers in Canada for Atlantic Salmon. Here are some fishing details:

All facilities and pools are on the Main SW Miramichi River:

- The Club lodge is about 25 miles from tidewater
- The Club has properties/pools up and down river from the main lodge between the just upriver from the bridge at Pond's Resorts and a bit downriver from the bridge at Doaktown

Private water:

- In New Brunswick, the owner of land bordering a river owns the fishing rights to the middle of the river
- Anyone can float through private water but they cannot fish except with permission of the owner

Fly fishing only for Atlantic Salmon:

- The Miramichi River salmon run typically starts about the 1st of June and continues into October
- The season typically ends on October 15th
- Atlantic salmon can only be fished using a barbless fly
- Sutter's is an ASF designated Catch & Release only club

Salmon born in the Miramichi:

- Stay in the river as parr (~3-5 inches long)
- Parr evolve to smolts over a few years in the river (~ 10 inches long); smolts head out to sea in late spring
- Smolts mature and grow feeding off Greenland and the Faroes Islands
- Mature salmon return back to the Miramichi, their place of birth
 - As grilse (small salmon- ~4 – 8 lbs) after being at sea for a year
 - As salmon (8 lbs and up to 30+ lbs) after being at sea for more than 1 year or after making multiple round trips from the Miramichi to sea and back over multiple years)
- Salmon spawn in the Miramichi in late October and November
- After spawning, the salmon remain in Miramichi over the winter and head back to sea in the spring
- Amazingly, the salmon returning from the sea to the Miramichi do not feed while they are in fresh water

Owned Pools

- Home – located immediately in front of the main lodge
- Lower Sutter – about 0.5 miles downriver from the main lodge
- Justy (upper and lower) – several miles upriver from the main lodge
- Carr – a few miles downriver from the main lodge
- Bartley – about a mile upriver from the main lodge
- Russell Rapids (upper and lower)– a few miles down river from the main lodge (and upriver from Carr Pool)

Jointly Owned Pools:

- Bridge Pool – at the bridge at Pond's Resorts
- Upper Duff's – about a mile downriver from Bridge Pool
- McCarthy Island
- Ellis Front
- Alex Island
- Bogan at Bridge Pool
- Crudenia
- Murry Hovey Front

Leased Pools

- Jollymore
- Maples
- Lower Duff
- Mercury Island
